READ BEFORE ORDERING

Remittance must accompany all orders.

Stamps accepted for small amounts.

No orders accepted for less than 50c.

Not less than 6 bulbs of one kind at dozen rates;
50 at 100 rates

Don't hesitate to order a long list of single bulbs if you wish. We fill hundreds of just such lists.

ALL ORDERS SENT PREPAID, except those at the prices per 100 which are considered wholesale orders. Retail orders (single bulbs to dozen lots, collections, etc.) usually sent parcel post. Wholesale orders usually go express collect. Mixed orders of both retail and wholesale items will generally be shipped express collect, with extra bulbs included free to help pay express. Cultural directions are included free with every order for gladiolus.

Send in your order EARLY, as some varieties are sold out quickly. Order in January, February or early March, if possible, so as to get the very best stock. We book the order and send the bulbs in the spring. As a rule, winter orders go out in March, and March orders in April. Southern orders sent any safe weather after February 15th. Although early orders are preferable, we are filling orders satisfactorily all through May and up to late June. (Referring here to gladiolus bulbs.)

Safe arrival guaranteed anywhere in the U. S. A.

All my bulbs are good blooming size unless otherwise stated. Many are extra large and heavy. I do not sell the smaller sizes or bulblets. All varieties are labeled (except Mixtures.) Bulbs are free from thrips.

I exert the greatest care to keep all stock true to name, sound and strong, and will replace any stock that may prove untrue to name or refund amount received for same. My stock is state inspected.

Write your name and address very plainly:

THE GLADIOLUS

There is a fascination in growing these flowers of unrivaled loveliness.

The sword-like foliage; the tall, upright stems clothed with flowers of exquisite beauty; the great variety of magnificent colors; the ease of culture; the sureness of bloom; and the lasting quality when cut—all combine to make the Gladiolus one of our most popular flowers.

LUCIFER

Lucifer—Bright orange red, with amaranth crimson blotch, producing a very striking color effect. Eight or ten large florets open at once on a tall straight spike. A richly colored and extremely showy and popular variety. An Australian production. 8c each; 75c per doz.

Two Fine Gladiolus

VAGABOND PRINCE

Beautiful iridescent garnet-brown, shaded lighter in the upper throat, with a small blotch of flame-scarlet on lip petal which glows like a live coal. 8 to 10 well placed blooms open at a time on a tall straight spike. This is an unusual and attractive new variety which is bound to become one of the most popular glads. Something different to show your friends. 20c each; \$2.00 per doz.

For More Novelties in Glads Turn to Pages 20 and 21.

Free Book with a \$10 Order—See Back Cover.

GOLDEN GODDESS

The first glad to receive a patent from the U. S. Government. Soft clear golden yellow, individual florets of medium size, but 10 or more open at once on a long straight spike. Florets well placed. Good keeper after cutting. Has claims of 26 buds on a spike. Winning many prizes at the shows. Sold under patent protection. 20c each; \$2.00 per doz.

ONE OF OUR GLADIOLUS FIELDS

TIME REQUIRED TO BLOOM

The number of days required to bloom depends on the latitude, weather, kind of soil, size of bulbs, depth of planting, etc., so that I consider the tables given by some growers as unreliable. I prefer to class them as EE—extra early; E—Early; EM—early medium; M—medium; LM—late medium; and L—late. An early variety will take about 70 to 75 days; medium, 85 days; and late, 95 days. These figures, however, are only approximate.

GOOD BULBS PRODUCE FINE FLOWERS

A WONDERFUL COLLECTION

How would you like to have one bulb each of our entire catalog list of Gladiolus, except those on pages 20 and 21, comprising 106 beautiful varieties, **EVERY ONE DIFFERENT?** What a splendid collection this would be! Imagine a perfect rainbow of color, from the most delicate shades of pink, yellow, lavender, rose, apricot, white and cream, to deep violet-purple, rich maroon and dazzling crimson. Some of our varieties, with good soil and cultivation, can be grown six feet high, with flowers six inches across. This collection would be the "talk of your town".

SPECIAL OFFER No. 1—One bulb each of the 106 varieties listed in the foregoing pages, retail value \$8.03, for \$7.50. Each bulb in a separate bag and labeled. Sent postpaid.

SPECIAL OFFER No. 2—Same as above, except not labeled, and not in individual bags. \$7.00 postpaid.

GROWN FROM THE "RAINBOW" MIXTURE

RAINBOW MIXTURE OF GLADIOLUS

This is a general assortment of many different varieties of Gladiolus, containing about all the colors of the rainbow. It is composed entirely of named varieties (unlabeled). There are no inferior discarded seedlings in this assortment such as some growers put into their mixtures. On the other hand it contains many varieties which sold at high prices when first introduced. A marvelous diversity of tints, shades and markings. Treat yourself to some of these beauties. It is intensely interesting to watch the different varieties open their beautiful colors. All large size bulbs.

CULTURE OF GLADIOLUS

If you can grow potatoes you can grow Gladiolus. Plant in any good garden soil as soon as ground is workable up to the first of June. If several plantings are made at different times the season of bloom will be lengthened. Do *not* plant in shade of trees or buildings, and do not allow *fresh* manure to come in direct contact with bulbs. Use well-rotted manure, commercial fertilizer, wood ashes, or bone meal, well mixed with the soil. Set the bulbs five to six inches deep in rows and about three to four inches between each bulb. Rows about 18 inches apart. Or may be massed in beds about four inches apart each way. If planted in quantity and to be cultivated with a horse make rows 30 to 36 inches apart. Keep soil loose and free from weeds. When cutting flower spike let at least four leaves remain on the plant to allow the bulb to mature properly. Dig bulbs in the fall, cut off tops, and after drying in the open air for a few days store away in a dry, cool but frost proof place in the cellar. Cultural direction sheet is included free with every order.

On account of its good keeping qualities the Gladiolus surpasses all other flowers for cutting purposes, and in order to obtain the utmost pleasure from the blooms you should place them in vases in the house. The Gladiolus is particularly adapted to table decoration. Cut the spike in the morning or evening when the first bud opens, leaving at least four leaves on the plant to mature the bulb. Change the water daily, remove the withered portions, and cut (on a slant) an inch or so from the end of each stem. Every bud will open one by one to the very top, and a vase of blooms may be kept fresh and beautiful for a week or ten days.

Pronounce Gladiolus With the Accent on the "o"

KINYON GLADIOLUS

For the benefit of our customers who are looking for something new and novel in Gladiolus we offer below a selected list of recent originations of the Kinyon Gardens. Try some of these fine new varieties. We give the originator's descriptions.

Bye-Lo—LaFrance pink, blending to a lighter throat with an attractive single marking on the lower midrib. Eight 4 inch well placed florets on a 3½ to 4 ft. plant. **75c each.**

Cheerful—Clear light red with clean cut white blotch. Tall and straight with 8 or more blooms open at a time. Good placement. Ruffled petals. Good keeper as a cut flower. **50c each.**

Iosco—Ivory buff. Exhibition type. The largest and most open flowered light yellow variety we have seen. Has been grown 6 ft. high, with 8 or more 6 inch flowers in bloom at a time. Gigantic as to height, florets, stem, leaves and buds. Prize winner. **\$1 each.**

Joan Pety—Pure pink with small markings of violet on cream in lower petals. 6 to 10 perfectly placed blooms, with ruffled petals, open at once. Spike tall and straight. **50c each.**

Nancy Ann—Light lavender pink, blending slightly deeper at edge of petals. Lower petals marked cream. 6 perfectly placed blooms, with lightly ruffled petals, open at a time on a straight spike. Won first prize at the 1938 Michigan show in its color class. **50c each.**

Ogemaw—Another exhibition flower of deep salmon pink with cream blotch. Some blooms lightly flaked with smoky blue. One of the tallest and blooms 6 to 8 large wide open florets. Spike extra long, straight and sturdy. Blooms of good texture and very heavy substance. **50c each.**

Edw. J. Scheffer—An extra pure white of exhibition type. This is one of the whitest of all whites. Tall and strong with many large blooms. Opens 8 to 10 well placed florets of good substance. Also opens blooms of good size to the end of the spike. Early blooming. **\$1.50 each.**

Reflection—Round well placed florets of clear lavender. Strong texture and substance of petals make this exhibition variety a good keeper. Has every quality demanded of a gladiolus to make it a leader in popularity. Color, size, habits and general perfection will force this flower to the top. Blooms in 85 days, and grows to the average height of 5 feet with 6 or more florets open at a time. **\$1 each.**

Rose of Michigan—Deep rose-red, which deepens in tone in the throat. Opens 6 to 8 well placed florets on a graceful stem. May well be compared to an American Beauty Rose in color and beauty. Foliage is dark blue-green. 4 feet or more in height. **\$1 each.**

Tyrian Princess—Rose-purple with an indistinct maroon feather, tipped cream, on lower petal. Florets compactly placed with 12 to 14 open at one time on a gracefully long strong stem bearing as many as 18 buds. **75c each.**

White Spire—Pure white. A tall growing variety, the tips of the spikes standing 4 to 5 ft. high. The florets are perfectly placed, being neither crowded nor widely spaced on the stem in spite of their 5 inch width. Petals thick and resilient. Stems strong and hold upright the eight massive blooms which open at a time. The dark green leaves are broad and straight. The white of this variety is most lovely, being a pure glistening white with no markings. The long tapering spike head will carry 18 to 24 buds. The spike may be cut in tight bud and will open to perfect size and condition. Prize winner. **\$1 each.**

BOB WHITE

Honor—A clear lavender with dustings of self color on lower petals. A dependable straight growing flower favored with an eye-catching shade of clear lavender. Sturdy as a cut flower. Blooms in about 85 days, with about 6 well placed florets open at a time. **25c each; \$2.50 per doz.**

Major Gladwin—Deep scarlet with a velvety tint of orange over the entire bloom. Blend of deeper red on lower petals. 5 to 6 wide open blooms on a tall straight spike. Fine substance. **10c each; \$1 per doz.**

Rose Standish—Clear light rose pink. Beautiful ruffled florets, opening 5 to 6 at once, well placed on a straight slender spike carrying 18 or more buds. Buds showing color are especially lovely. Blooms in about 75 days. **8c each; 75c per doz.**

So-Big—Deep rose pink with violet feathers on lower petals. An outstanding flower which has 6 to 8 immense blooms open on a tall straight spike. Has and will continue to win many show prizes. One of the largest blooming varieties yet. **60c each; 5 for \$2.50.**

Rusty—Color made up of very fine lines of scarlet and yellow, which gives an effect of orange. 6 to 8 large wide open blooms with good placement on an 18 to 20 bloom spike. An unusual novelty. **10c each; \$1.00 per doz.**

Stately Lavender—Soft pinkish lavender. Long straight spike, bearing 10 or more well placed blooms open at a time. Distinctive in its color class, and a most pleasing, soothing desirable color. **10c each; \$1.00 per doz.**

VISITORS DRIVING THROUGH THE GLAD FIELDS

INSECTS

As a rule, Gladiolus are not bothered very much with insects, except that late years very minute insects called Thrips have been giving some trouble in certain parts of the country. If you failed to obtain good bloom last summer, buds drying up, etc., the chances are that thrips were to blame. These insects are so small that when young they are almost invisible to the naked eye, and are very easily overlooked. After your old bulbs have been cleaned of the old bulbs and roots, which operation is best done in late November or early December after they have been drying a few weeks, sprinkle Naphthalene Flakes over the bulbs at the rate of about 1 oz. (four level tablespoonfuls) to 100 bulbs. If in paper bag, fold over top; if in tray or box, cover with newspaper; and let stand a month or two. Most of the flakes will evaporate, and the rest may be removed. This kills the thrips which winter over on the bulbs. Do not use naphthalene in the soil. Will mail a box of Naphthalene Flakes sufficient to treat 1000 bulbs for 25c. This price includes postage to Zone 4. More distant points, 5c extra. Write for price in quantity.

As a spray we recommend "ROTOTOX". Write to the Rototox Co., 815 Yale St., East Williston, N. Y., and they will send you printed information regarding Rototox which is very complete, with many tips and pointers, and will be of great value to any grower of flowers.

Rototox employs rotenone as its base in combination with the other toxic and protective elements of derris root, and is many times more effective than nicotine or lead arsenate. Rototox acts in three ways—as a contact killer, a stomach poison, and a repellent. It will not clog the sprayer and will not discolor blossoms or foliage if used correctly.

In addition to glads, use it on delphiniums for mite control and on dahlias for leaf hopper and corn borer and for a general spray on all your flowers and vegetables.

To save you time in ordering we list Rototox prices here:

1 oz. 35c; 8 oz. (makes 12 to 24 gals. of spray) \$1.00; 1 pt. \$1.75; 1 qt. \$3.00; ½ gal. \$5.00; 1 gal. \$10.00. All postpaid.

Order direct from The Rototox Co., 815 Yale St., East Williston, N. Y.

KEEP YOUR BULBS HEALTHY

If your bulbs have become scabby or diseased, they may be benefited and possibly cured by the following process: In the spring, just before planting, pour almost boiling water over 1 oz. corrosive sublimate (poison) in an earthen or wood dish, just enough to dissolve it. Add this solution to 5 or 6 gals. lukewarm water, avoiding a metal container. Soak your bulbs in this solution for 2 hours and then plant as they are. This treatment will also kill any thrips and eggs which may be on your bulbs, but does not completely take the place of the naphthalene flakes, as the flakes kill during the winter before the insects have a chance to breed in storage.

We recommend "ROTOTOX" as one of the best insect sprays for use not only on Gladiolus but also on all garden plants. Write the Rototox Co., 815 Yale St., East Wiliston, N. Y. (Read previous page)

VISITORS WELCOME AT BLOOMING TIME

The Gladiolus Fields are in bloom from about Aug. 1st to the late Sept. frosts, and the height of the gladiolus blooming season is the last two weeks in August and the first 10 days in Sept. Exquisite blooms from the choicest varieties may be had at the roadside stand for only 50c per doz. By mail to nearby states, box of 2 doz. our choice, \$1.50 including postage.

The Dahlias are blooming in September.

New Lebanon is located in the beautiful Lebanon Valley, on a fine concrete road, near the N. Y.-Mass. state line, 10 miles west of Pittsfield, Mass. and 25 miles southeast of Albany, N. Y. Leave the concrete at Fisher's Store, New Lebanon, and proceed one short mile on asphalt road (West St.) Watch for the signs.

DAHLIAS

No garden is complete without at least a few choice Dahlias. These handsome flowers are easily grown, and reward the gardener with gorgeous blooms. Plant in May or early June, at least 3 ft. apart, and about 5 inches deep, laying the tuber flat, with the eye or sprout within a couple of inches of a stake previously driven. Light soil preferred, not too rich. Lighten heavy soils with peat moss, sand or coal ashes. Keep fertilizer from direct contact with tuber. After frost kills the plant, dig the clump, being careful not to break the necks of the tubers, and store in dry earth, sand or peat moss, in a cool but frost-proof cellar. Divide the clump into single tubers in the spring before planting. Roots sent after April 1st unless otherwise ordered, as eyes show plainer.

Types: (B) Ball; (D) Decorative; (C) Cactus.

Prices are prepaid. Spring delivery.

Price per dozen is 10 times the single price.

3 of a kind will be sold at the dozen rate.

DAY LILIES

(Hemerocallis)

These old fashioned perennials are again becoming very popular for border planting. They are perfectly hardy, free blooming, colorful, easy of culture, and best of all have no insect enemies or diseases. Plant spring or fall, 2 ft. apart, in sun or shade.

Lemon Lily—Clear lemon yellow lily-like flowers in June. Sweet scented. 2 to 3 ft. high.

Double Orange—The double flowered Day Lily. Golden orange, or deep copper color. Large flowers in July and August. Strong grower; 3 to 4 ft. high. Attracts attention.

Above Day Lilies, 25c each; the two for 40c; \$2.00 per doz., prepaid.

BLEEDING HEART

The old-fashioned perennial "Seal Flower". Long sprays of graceful heart shaped rose pink flowers in May or June. Fern-like foliage. Very hardy, long lived, and easy to grow in sun or shade. 2 to 3 ft. Order before May 1st. 35c each; \$3.50 per doz., prepaid.

Fringed Bleeding Heart—Deep rose flowers, more elongated than above, and finer

foliage which remains green all summer. Longer period of bloom. About 15 inches high. Will grow in shade or anywhere. Perfectly hardy. 25c each; \$2.50 per doz., prepaid.

PHLOX SUBULATA—MOSS PINK

PHLOX SUBULATA—MOSS PINK

The Moss, or Mountain Pink is a moss-like, creeping, nearly evergreen plant, useful for rock garden, edging or border. Foliage completely hidden in May by a mass of bright bloom. Plant early in spring.

Rosea—The old fashioned variety. Rose pink. 10c each; \$1.00 per doz., prepaid.

Atropurpurea—Newer variety with a deeper and more brilliant color. Intense wine-red. 15c each; \$1.50 per doz., prepaid.

Vivid—New Dwarf and compact. Very bright pink, with a fiery red eye. The prettiest of them all, and a darling. 25c each; \$2.50 per doz., prepaid.

Alba—Same as Rosea, but white. Same price.

GAYFEATHER (Liatris)

Tall spikes of fuzzy bright rosy purple flowers. Attracts much attention when in bloom in Aug. and Sept. A rugged hardy perennial which will grow well on poor soil. 25c each; \$2.00 per doz., prepaid.

CHEDDAR PINK

Compact cushions of blue-gray foliage a few inches high, covered in early summer with sweet scented rosy pink flowers. Hardy, and easy to grow. Fine for the rock garden. 20c each; \$1.50 per doz., prepaid.

HEN AND CHICKENS

Small rosettes of succulent leaves from which spring tiny young rosettes which nestle around the mother plant like chickens. Hardy. Interesting for rock gardens. 20c each; \$2.00 per doz., prepaid.

ENGLISH IVY

Glossy dark green leaves. An attractive vine to train over woodwork in the house in winter. In summer, plant in the ground at foundation or porch, or trail from window box or lawn vase. Will grow in shade. 25c each; 4 for 80c, prepaid.

NEW HARDY FALL ASTERS

Harrington's Pink—At last we have a real true pink Fall Aster. This new creation grows to a height of four feet, and completely eclipses the older pinkish favorites. Grand for fall gardens and a fine cut flower. **60c each; 6 for \$3.00; postpaid.**

Sunset Glow—Another late introduction improving on the older pink varieties. Bright glowing deep pink. Grows about 3½ feet high and blooms in Sept. A new and fine addition. **35c each; 3 for \$1.00; 12 for \$3.50; postpaid.**

Charles Wilson—Bright red. A rare shade in Fall Asters. Considered an improvement on Red Rover. Grows about 3 ft. high. Handsome. **35c each; 3 for \$1.00; 12 for \$3.50; postpaid.**

Lilac Time—A new dwarf form. Soft lilac, or violet-blue, flowers completely covering well rounded bushy plants growing about 15 inches high. Blooms Sept. and Oct. **25c each; 5 for \$1.00; 12 for \$2.25; postpaid.**

GARDEN CHRYSANTHEMUM

Pink Cushion—Dwarf cushion-like growth, a foot or more high and two broad, completely covered with pink flowers from Sept. to frost. Give some protection for winter, or may be lifted for pot growth. **25c each; 5 for \$1.00; 12 for \$2.25; postpaid.**

NEW COREOPSIS

Golden Giant—An improvement on the older varieties. True golden yellow flowers four inches in diameter. Hardy perennial. Be sure to include this fine new Coreopsis in your order. **25c each; 5 for \$1.00; 12 for \$2.25; postpaid.**

THE LATEST PHLOX

Harvest Fire—A new introduction in Hardy Phlox. Large heads of brilliant salmon-orange, with clean disease resistant foliage. Try this new comer for health, color and vigor. **50c each; 6 for \$2.50; 12 for \$4.75; postpaid.**

NEW DOUBLE SHASTA DAISY

White Swan—Pure white flowers, a little larger than pyrethrums, and something like them in shape, on strong wiry stems. Flowers in June here, and for Memorial Day farther south. Free blooming. 2½ ft. high. **25c each; 5 for \$1.00; 12 for \$2.25; postpaid.**
